## Ardeh oil

which is sometimes known as Ardeh sesame oil is extracted from Ardeh. Ardeh oil is produced by heating and frying sesame, or in other words, roasting sesame and then grinding it. Therefore, it can be concluded that the oil obtained from Ardeh is roasted sesame oil, while cold sesame oil is obtained directly from raw sesame. Cold press sesame oil is obtained by applying pressure to sesame seeds and extracting it from oil seeds is just a mechanical method and no processing or additives are applied to sesame seeds.
